 Ernakulam, Kerala

Summary

Aspiring Data Scientist with a strong foundation in Python, SQL, Machine Learning, and Data Analysis. Passionate about transforming data into meaningful insights through predictive modelling and analytical problem-solving. Eager to apply my technical skills and contribute to real-world data science projects while continuously learning and growing.

Projects

Stroke Prediction Using Machine Learning | [LINK](#)

January 22 - March 2026

Technologies: Python, Pandas, NumPy, Scikit-learn, Matplotlib

- Built a stroke prediction model using healthcare data with preprocessing, encoding, scaling, and SMOTE for class imbalance.
- Compared 6 classification algorithms and used GridSearchCV for hyperparameter tuning.
- Achieved ~96% accuracy with Random Forest, selected as the best-performing model based on test-set evaluation.

Student Exam Score Prediction Using Machine Learning | [LINK](#)

March 20 – May 2026

Technologies: Python, Pandas, NumPy, Scikit-learn, Matplotlib

- Built a regression model to predict student exam scores using study and lifestyle-related factors.
- Compared Linear Regression, Decision Tree, and Random Forest, with Linear Regression achieving the best R^2 score of 0.8980.
- Applied GridSearchCV for model tuning and evaluated models using MAE, MSE, RMSE, and R^2 .

Skills

- **Languages:** Python, SQL
- **Libraries:** Pandas, NumPy, Scikit-Learn, Matplotlib, Seaborn
- **Tools:** Jupyter Notebook, Google Colab, Visual Studio Code (VS Code)
- **Soft Skills:** Problem Solving, Analytical Thinking, Communication, Teamwork, Time Management

Education

Bachelor of Computer Applications (BCA)

2022-2025

Cochin Arts and Science College

2022-2025

CGPA : 6.79

Certifications

Python Workshop

May 2025

- Completed a 5-day Python Workshop covering Python fundamentals, data structures, functions, OOP concepts, file handling, and hands-on coding exercises for problem-solving and application development.

Data Science Certification

July 2026

- Completed a 6-month Data Science course covering Python, statistics, data analysis, data visualization, machine learning, and predictive modeling, with hands-on experience using Pandas, NumPy, Matplotlib, Seaborn, and Scikit-learn on real-world datasets.

NSDC Certification in Data Science & AI

August 2026

- Completed the Certificate Course in Data Science & Artificial Intelligence Course from Avodha Edutech Private Ltd.
